CARACTERÍSTICAS TÉCNICAS

THERMOSTAT

Power source: 4 AAA batteries or USB power supply

Output: 1 channel passive linkage output(3A)

IP Rating: IP21

Temperature setting range: 5°C~35°C

Temperature setting accuracy: 0.5°C

Temperature display: 5°C~50°C

Temperature display accuracy: 0.1°C

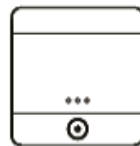

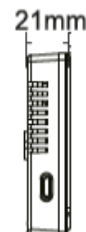

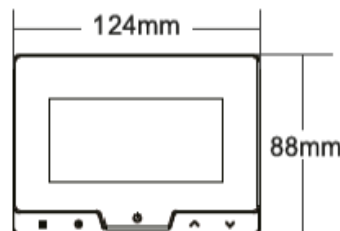

Operation temperature range: 0°C~50°C

Shipping & Storage temperature: -10°C~60°C

Frequency: 868MHz

Wireless transmit range: 100M

Dimensions

RECEIVER

Power source: 100~240VAC 50/60HZ

Output: 1 channel passive linkage output(3A)

IP Rating: IP21

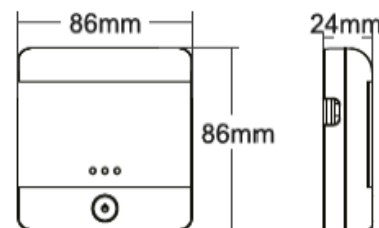

Operation temperature range: 0°C~50°C

Shipping & Storage temperature: -10°C~60°C

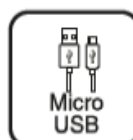

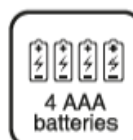

Frequency: 868MHz

Wireless transmit range: 100M

Dimensions

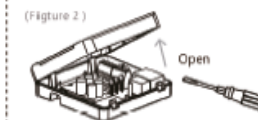

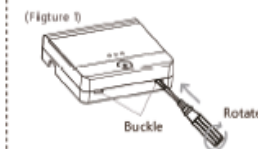

Thermostat energized mode
